About The Gala

The Jeffco Schools Foundation Gala at the Denver Museum of Nature and Science is incredibly special and relevant to this moment in time and to the vision of Jeffco Schools Foundation.

You will have exclusive access to explore the inspiring elegance of one of the world's most prominent and impressive gems and minerals collections - the Coors Gems and Minerals Hall. When we contemplate the uniqueness of each of these precious gems and minerals, we think of our Jeffco students. They are unique, they are precious, and they are worthy of our time, intention, and investment to unearth their unique potential.

Colorado was founded on mining and inside the Gems and Minerals exhibit you will see local finds such as Tom's Baby, an eight-pound nugget of crystallized gold unearthed in Breckenridge in 1887. You'll also be dazzled by the largest known pocket of aquamarine ever discovered from Colorado's own Mount Antero, and a giant Brazilian topaz once owned by artist Salvador Dali.

About Jeffco Schools Foundation

Since 1983, Jeffco Schools Foundation has a long history of providing academic, programmatic, and enrichment support to Jeffco students, educators, schools, and families. We serve over 80,000 students across 155 public schools in Jeffco.
